FEATURED PRODUCT: 4K QUAD 3G-SDI EXTENDER

UNCOMPRESSED, LOWEST LATENCY SDI EXTENSION : See it at NAB 2019

The Quad 3G-SDI Extender supports four 3G-SDI inputs over two fibers, extending video with no compression, latency, artifacts or lost frames. The Quad 3G-SDI Extender is ideally suited for broadcast, media and entertainment, medical, live event production and rental and staging applications requiring SDI support and high resolution 4K video, such as 4K filming, image magnification and projection, camera connectivity, video editing and post-production, video analysis and simulation.

- Supports up to 4K DCI (4096 x 2160) resolution, 60 Hz 4:2:2 10-bit; 30/24 Hz 4:4:4 10-bit and 12-bit
- Extend SDI signals up to 80km between source and destination using only two fibers
- Extend RS-422 signals for equipment control
- Able to be switched using Thinklogical Velocity or TLX Matrix Switches
- Passes all video and ancillary data uncompressed and unaltered
- Does not require pathological optics
